

Dear Folks,

Please do nothing that will weaken Indiana's no-call list. I realize the current President has probably promised some of his donors that you will gut effective no-call legislation passed by the states who actually represent their citizens, but we would appreciate not being harassed by sales people. I am especially grateful not to be receiving calls from MCI, Blue-Green Resorts, Madame Cleo, and Tru-Green Chem lawn. If you do weaken the law, I will call your offices every time I receive a telemarketing call so that you can get first hand experience of just how frustrating, time wasting and short sighted that decision was.
